

## FIGHTING TYPHOID BY VACCINATION

French Scientist Discovers Simple Method of Conquering Dread Disease.

PARIS, June 21.—Prof. Vincent tonight announced before the Academy of Medicine the discovery of an effective anti-typoid vaccine, which he prepared by steeping typhoid bacilli in a weak solution of water and sodium chloride (common salt), with an admixture of ether.

Prof. Vincent made a number of experiments on animals which, after being vaccinated, withstood subsequent inoculation with typhoid bacilli. Tests on vaccinated thirteen persons, an examination of whose blood after the operation showed that it possessed to a high degree properties destructive of the typhoid bacillus.

Further experiments demonstrated that typhoid bacilli, when placed in contact with the serum of the blood taken from the person vaccinated, lost all vitality.

## POSTAL SAVINGS WORRYING TAFT

Continued from Page One.

ly had an influence in maintaining the measure intact.

All measures were directed to the secretary of the house bill relating to the deposit and withdrawal of postal bank funds by the treasury.

The contention was that the house bill contemplated the withdrawal of the funds from the local banks for transference to the large eastern banks and to the national treasury, while it was urged that the senate bill would hold the money at the home bank except in case of war or other contingency.

The first of the amendment disposed of was offered by Senator Bacon and provided for the striking out of the provision authorizing the use of postal bank deposits for the purchase of bonds.

Supporting his own amendment, Mr. Bacon declared the provision of the house was the entering wedge in the interest of a great central bank. He said the financiers of Wall street could have written nothing more to their own liking.

The amendment was voted down by a majority of six as was the next amendment, which was offered by Mr. Cummins, which required that depositors should be selected in accordance with a general rule.

## "INSURGENTS" STILL WANT CANNON'S SCALP

WASHINGTON, June 21.—A secret conference of the house "insurgents" was held late today to discuss the subjects of further activity at the present session. The question whether another attempt should be made to depose Speaker Cannon was broached and a divided sentiment was discovered. Statements were delivered by different members who have canvassed the situation and reports were made of careful counts on the proposition. It was agreed that it was extremely doubtful whether enough votes could be obtained to carry through such a proposition.

One "insurgent" reported he had carefully sounded the Democratic side and had found the Democrats preferred the congressional campaign with Speaker Cannon still in the presidential line of the house. Members of the minority, he said, believed their chances for carrying the house were improved with the issue of "Cannonism" still alive.

The unanimous opinion of the "insurgents" however, that the Democrats would vote solidly to depose Speaker Cannon if the motion were made. Before the meeting ended an "insurgent" told his colleagues it was a question of individual action and he wished to serve notice he might of his own motion bring the matter before the house.

## SHIP SUBSIDY LOBBY SEARCHINGLY PROBED

WASHINGTON, June 21.—Rigid scrutiny of the books of the Merchant Marine League of the United States, which has been active in urging ship subsidy legislation, was continued today by the house ship subsidy investigating committee.

Secretary Penton concluded a two hours re-examination. His testimony has shown that the league had contributed to banquet in Washington to assist the discussion of the merchant marine, that former Representative McCleary of Minnesota had received \$15 from the league for speaking, and that Representative Humphrey of Washington had figured in the entries on the league's book in an item dated March 23, 1909, and reading, "Congressman Humphrey, \$75."

"For what purpose was that money paid Mr. Humphrey?" asked Attorney Ralston, for the prosecuting witnesses.

"That," said Mr. Penton, "was for money expended in traveling to Indianapolis and some other cities out west. It ought to have been \$100."

Mr. Humphrey, Mr. McCleary, Chairman Green of the house committee on merchant marine and others were present at a dinner given by the league's executive committee in this city about a year ago, said Mr. Penton, when the legislative committee came to Washington to see what could be done in reference to the merchant marine.

## MAY PUSH REPORT ON BALLINGER AND PINCHOT

WASHINGTON, June 21.—Several members of the Ballinger-Pinchot investigating committee in Washington today made plans to leave for the department of congress to weigh the evidence before the committee and to prepare a report.

Whether the committee will adopt this course will be decided at a meeting to be held next Saturday.

## POSTAL SAVINGS BILL COMES TO VOTE TODAY

WASHINGTON, June 21.—Late today the senate agreed to vote tomorrow at 5 o'clock on the postal savings bank bill. Efforts will be made to adopt the house amendments, thus avoiding the necessity of a conference.

## HOUSE WILL AGREE TO SENATE LAND BILL

WASHINGTON, June 21.—By a vote of 101 to 71, the house agreed today to the

## AMUSEMENTS

### IN SALT LAKE THEATERS.

**ORPHEUM THEATRE**—"Merely Mary Ann," with Maude Leone, Willard Mack and players. Matinee, 2:15. Evening, 8:15.

**GRAND THEATRE**—Victory Bate-man in "Caprice." Matinee, 2:15. Evening, 8:15.

**Musical Comedy.**  
**DANIELS THEATRE**—"The Jolly Widow." Matinee, 2:15. Evening, 8:15.

**Vaudeville.**  
**CASINO THEATRE**—Fishers' vaudeville and moving pictures. Matinee, 2. Evening, 7:30.

**SHUBERT THEATRE**—High-class vaudeville and moving pictures. Matinee, 2. Evening, 7:30.

**Motion Pictures.**  
**LUNA, ISLIP THEATERS**—Motion pictures, continuous performance, afternoon and evening.

At the Salt Lake theater on Tuesday evening Kessler's Thalia Theater company of New York presented "The Jewish Heart," a musical play in four acts.

The company which presented this charming play was the best one seen upon the Salt Lake stage for a long time. In its entirety it was the best company of players that has ever appeared in the old play house.

Every member was a star. David Kessler is at the top of Jewish actors. He combines the tragedian with the tenor, the actor with the minstrel. He is a magnificent tenor voice. He is a superb actor.

And his company was a splendid one. Rosa Karp has been seen here before. She is an actress, as also a song bird, another happy combination and is just as pretty and just as charming as ever.

Mme. Nadelsky made her first appearance in Zion with the company. She had a role that was ideal that fitted her perfectly.

Mme. Clara Young likewise appeared before a Salt Lake audience. She has a fine voice and her waltz song was encored again and again.

Of the other members of the company the roles assigned them were admirably carried out. There were a number of curtain calls. It is to be regretted that the audience present was not a capacity one, but it was an appreciative one.

Willard Mack made a happy selection of play in this week's offering at the Orpheum, for "Merely Mary Ann" fits his charming wife, Miss Leone, as no bill they have offered in the course of their long stock engagement here. She made a delightful play, her interpretation of the part was the part with many possibilities not before conceived. It, and the support of the company was excellent. Despite the exceedingly warm weather it is destined from indicated to be the banner week of the engagement at the Orpheum so far.

From the press notices received from other cities the Mission will offer another excellent bill for the week ending Saturday. The bill is a varied one and consists of several acts, which have created a great deal of interest in every city in which they have appeared.

Unwonted interest should be evinced at the Salt Lake theater tomorrow morning upon the occasion of the opening of the seat sale for the engagement of Mrs. Fiske, which is scheduled for Wednesday evening, with a matinee on Saturday.

Just a riot of color and costumes, a dash of comedy here and there, and all carried along on a lightning pace. The bill is all fun and mirth and melody, is "The Jolly Widow" at the Daniels this week.

Large crowds were in attendance at the Shubert theater last evening, and the bill offered his week was very well received. The Star Comedy Troupe gave a finished presentation of the comedy, "Almost a Senator," the work of Fred Stansfield as the Irish lad, being the best ever done. Other theaters under the management of Max Florence were filled.

The witness said that raw flour was a poison if taken in sufficient quantities. He said that bread was a poison if taken in sufficient quantities. He said that yeast and the processes used in preparing bread destroyed the nitrates in bleached flour. Dr. Wesener added that at that time he had experienced no much with bleached flour, he believed it contained nitrates.

The witness was further quoted as testifying before Secretary Wilson that the process of bleaching flour was a "very fine advance in the art of milling and that there was virtually no difference in the bread made from bleached and unbleached flour."

He said the testimony represented his views still.

THE "KIDS" AT THE BANQUET.

## GLORIOUS DAY FOR ORPHANS

Continued from Page One.

Wandamere are well protected, and there is absolutely no danger of a great accident than falling on the greensward.

Presently there was joyous shouting from every corner of the big place. Somebody had brought down what seemed to be a million horns and these, propelled by the lusty lungs of 300 lusty youngsters—well, you know.

The kiddies romped and played as they never had before, and then they formed little groups and attacked the merry-go-round, and say, that merry-go-round certainly did its duty yesterday. When the poor, tired horses in the ring were unhitched last night and given their oats, they knew they had put in a full day. But the horses were glad of it, for they had carried such good little girls and

feet without hearing the greeting of some laughing Elks.

"Hello, Little Bill! like some ice cream?"

Would they like some ice cream? Well, I guess.

But it was at dinner time when the real sight was presented.

There is at Wandamere about a mile of summer houses. Well, in that mile of summer houses there were places laid for 200 hungry kids. The places were not put so close together that the guests were crowded, like people are when they go to a high lunch banquet; but there was lots of room for every kiddie to wiggle his arm.

"They give us elbow grease according to our strength," said one little shaver. "And what they did have to eat? Well, say, what didn't they have to eat? There was a menu that was intended for a battalion in wartime. There was ham, beef, bread, salad, jelly, oranges, bananas, cherries, apples, veal, sausage, pickles—oh, so many things and so much of everything. To top it off there was

evening the kiddies were bundled into the street cars and were toted home, many of them so dog-tired that they were asleep before they touched the seats.

One of the features of the afternoon was the motorcycle exhibition by Jake De Rosier, who rode a mile in 45 seconds on the new three-lap board saucer track. Jack Prince, who cleared the track for the exhibition, said that DeRosier would have gone the mile in 40 seconds over a smooth surface. The track is still in the rough and best time could not be made in its present state. Everybody at the park who witnessed the exhibition was pleased. The rider seemed to fly around the "plepan" like a huge bird, he was going so fast. It was a great treat for the orphans.

A Fine Band Concert.

In the evening Wandamere was the playground of the grown-up folks and those who are near-grown up. An excellent musical concert was given by the regimental band of the Fifteenth Infantry, under the direction of Sergeant-Major Godfrey Buglione. This feature of

the day's entertainment was highly appreciated by the Elks. The programme was one finely arranged and the numbers were given with pleasing effect. The programme began with a descriptive "Regimental Review." The second number was a selection from "Carmen" by Bizet. The rag "Templeton" by Loda was next in order, and then came the descriptive piece, "The Cavalry Charge" by Luder. This number was given in a masterly manner. The closing number was "Dope," a two-step by Powell, and "Mister Black Man" by Pryor.

In the pavilion a large crowd of dancers enjoyed a good programme. After the festivities, Chairman F. L. Gardner of the Elks committee expressed himself as being well pleased with the day's work.

Celebration a Success.

"We feel that the day has been a success. The children were certainly given a good time, and the Sisters and the ladies of the Elks were most graciously pleased. I don't think any one will doubt for an instant that the youngsters enjoyed themselves. We cannot tell at this time how we came out financially, but there will be a snug little sum for the orphans. The tickets were put out by the Elks, and we cannot tell how many were sold. Altogether, though, I think we will make out pretty well."

"I wish you would mention that we are extremely grateful to the ladies of the Elks and the musicians of the Fort Douglas band for a very fine programme."

The committee of Elks having charge of the celebration was: F. L. Gardner, J. W. Collins, Col. C. L. Applegate, M. E. Mulvey, A. Davis, Sam Sheerill, Thomas Hobday and Thomas Homer. In addition to these, a large number of Elks lent their assistance.

It certainly was a grand and glorious day.

Probable Kidnaping.

NEW YORK, June 21.—Michael Scimeca, 3-year-old son of Dr. Marione Scimeca, a well-to-do Italian physician, followed a man who offered him candy and disappeared. The father, who reported to the police that he believed the child has been kidnaped, Dr. Scimeca has received four blackhand letters, demanding \$1000, on pain of death in his family.

Triumph for Surgery.

NEW YORK, June 21.—A remarkable operation has just been performed at the post graduate hospital by which a man has been provided with an artificial jaw of pure gold to replace a jawbone destroyed by disease. The operation is said to be the first of the kind ever performed in a New York hospital.

Fire in Hay Barns.

At 3 o'clock this morning a fire broke out in the hay barns in the rear at the northwest corner of Second South and West Temple streets, and had it not been for the prompt action of the police department might have threatened the entire block. The origin of the blaze, which was a spectacular one, is unknown. The damage was slight.

A private safe may be rented in the fire and burglar-proof vaults of the Salt Lake Security and Trust Company, 32 Up, Main street, \$2.00 per year.

## KRUG LOSES LIFE IN AUTO ACCIDENT

Noted Brewery Man of Omaha Killed When Two Cars Collide in Street.

OMAHA, June 21.—William Krug, president and general manager of Fred Krug Brewing company of this city, was killed today when his car was struck by an automobile driven by Al Schultz, a local driver, were seriously hurt. Krug, of Omaha slightly injured, and two automobiles came together at fourth and Leavenworth streets, before noon today.

## BOTH SIDES WATCHING FOR POINTS OF VANTAGE

BISBEE, Ariz., June 21.—The can custom house and postoffice in Sonora, was last night guarded by Mexican customs guards, anticipating a custom collector came across the line last night by Mexican custom house, and went to the Mexican custom house which is guarded by American deputy sheriffs.

Torres, at Naco, Ariz., received information that an attack was planned on Naco, Sonora. The attack of Mexican revolutionists from the side of the line. This plan was to take the Mexican custom house and postoffice, and to make a custom collector came across the line last night by Mexican custom house, and went to the Mexican custom house which is guarded by American deputy sheriffs.

The deputy sheriffs at Naco, Ariz., telephoned to Bisbee and a posse left at midnight, arriving in Naco at 1 o'clock this morning. It was feared if an attack were made upon the house in Sonora trouble might ensue on this side of the line. Mexican revolutionists and sent them to Hermosillo. Mexican carrying arms and ammunition into Mexico have been caught between Naco and Cananea and sent to Nogales. It is said much of this side of the line have been carrying arms and ammunition in large quantities to Mexicans during the few days.

## COMO LAKE TRAGEDY IS STILL DEEP MYSTERY

NEW YORK, June 21.—Reports received by the police from London declare that a man answering the description of Porter Charlton, whose murder at Como, was the man whom the police of Europe are looking for last Tuesday.

He complained of being sick and was in a doctor, who said he had severe elitis and advised an operation. The visitor declined to undergo.

Thursday the man went to the office of the Hamburg American line under a name which has been given the police, engaged a second class passage on the Deutschland, which will arrive in New York Thursday.

## ROOTS, HERBS AND BARK

You can no doubt recall the collection of roots, herbs and barks you made every fall for the medicine chest.

It is interesting to note that the successful remedy for female ailments, its origin more than 30 years ago, of these home medicine chests, and dia E. Pinkham's Vegetable Compound is made today in immense quantities from those same roots and herbs, with extreme accuracy, care and cleanliness.
